Supposed Murder.—The Great Falls (N. H.)

Sketcher gives an account of the disappearance of a man named Richard Freeman, of Berwick, and various facts which lead to the suspleion that he has been murdered. He left a tavern in Berwick on Sunday evening, where it is said he had won money in gambling. Shortly after the time of his leaving the house a hortid sbrick and groans were heard by several persons, across the river, near the bridge—and on search being made on Monday morning, his wallet was found, on an island in the river, to which it had been washed by the waters, destitute of money. An examination baving been made by the inhabitants of the village, without any clue to the mystery, the Selectiment offered a reward for the recovery of the body, and for the detection of the murderer, if it should prove that a murder had been committed.

Two men of the names of Usher and Burnham, who were gambling with Freeman during the day and evening, have been arrested an after still held, but nothing has been developed yet to fix crime upon them. They are believed to be very bad men. Usher, it is said, was ence arrested on suspicion of the murder at Manchester.

The Repert of the Assembly Committee on Banks and Insurance Companies says:

"The citizens of the State, and especially of the City of New-York, have siready, in the optalon of your Committee, suffered more than enough in consequence of the prohibitory taxes heretofore imposed on foreign insurance; and they cannot doubt that the interests of the business community require rather the encouragement than the exclusion of toreign agencies, until our own State, by wise and judicious laws, shall provide for the establishment of a sufficient basis of insurance to meet the exigencies of ordinary business."

In seldition to this, the Committee deem that the pro-

At Baltimore the Money market is rather tighter and a good desi of paper was in the street, although the banks were discounting liberally. The dmerican says: The dightness in the Money market still continues; not, however, from any extraordinary demand for the wants of our own community, but on secount of the pressure in Boston, from which place we learn that paper is sent on here to be discounted at street rates, and the proceeds drawn from our banks in specie and transmitted north. The effect of this has been a curtailment of discounts by the banks here.
